Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As the Coordinator of Technology for the Greensburg-Salem School District in Westmoreland County, Pennsylvania, I am writing to share Comcast's contributions to our community and to encourage FCC approval of Comcast's proposal to join with NBC Universal.

The nature of learning in Pennsylvania's public schools is rapidly changing. Not only does the world come to the classroom, the world is the classroom. Comcast understands this and provides courtesy cable so that our 3,060 students have the cable television access and exposure needed in the classroom.

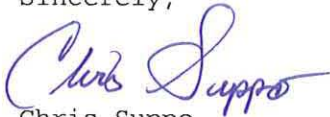

With Comcast's support, we are educating our students to become productive and responsible citizens. The Greensburg Salem High School was recognized for the second consecutive year in *U.S. News and World Reports* for achieving Bronze Medal status. Additionally, the Greensburg-Salem School District was ranked first by the *Pittsburgh Business Times* for exceeding achievement expectations, considering the percentage of students who are eligible for free or reduced lunch.

Comcast's commitment to the City of Greensburg is further exemplified by its leadership and community investment. For more than 20 years, Comcast has offered telecommunications services to the 28,000 residents of Greensburg. It provides solid jobs for our residents, who view Comcast as one of Westmoreland County's top employers.

I hope the FCC will take Comcast's commitment to Greensburg Salem's schools and Westmoreland County into account when reviewing its proposal to join with NBC Universal.

Thank you for the opportunity to share my thoughts on this matter.

Sincerely,

Chris Suppo
Coordinator of Technology
Greensburg Salem School District
